(PBS&J), United States Geological Survey (USGS), Michigan Center for Geographic Information (MCGI) and the Center for Shared Solutions and Technology Partnerships (CSSTP). This information was derived from digital orthophotography at a 1-meter resolution from photography dated 2009.

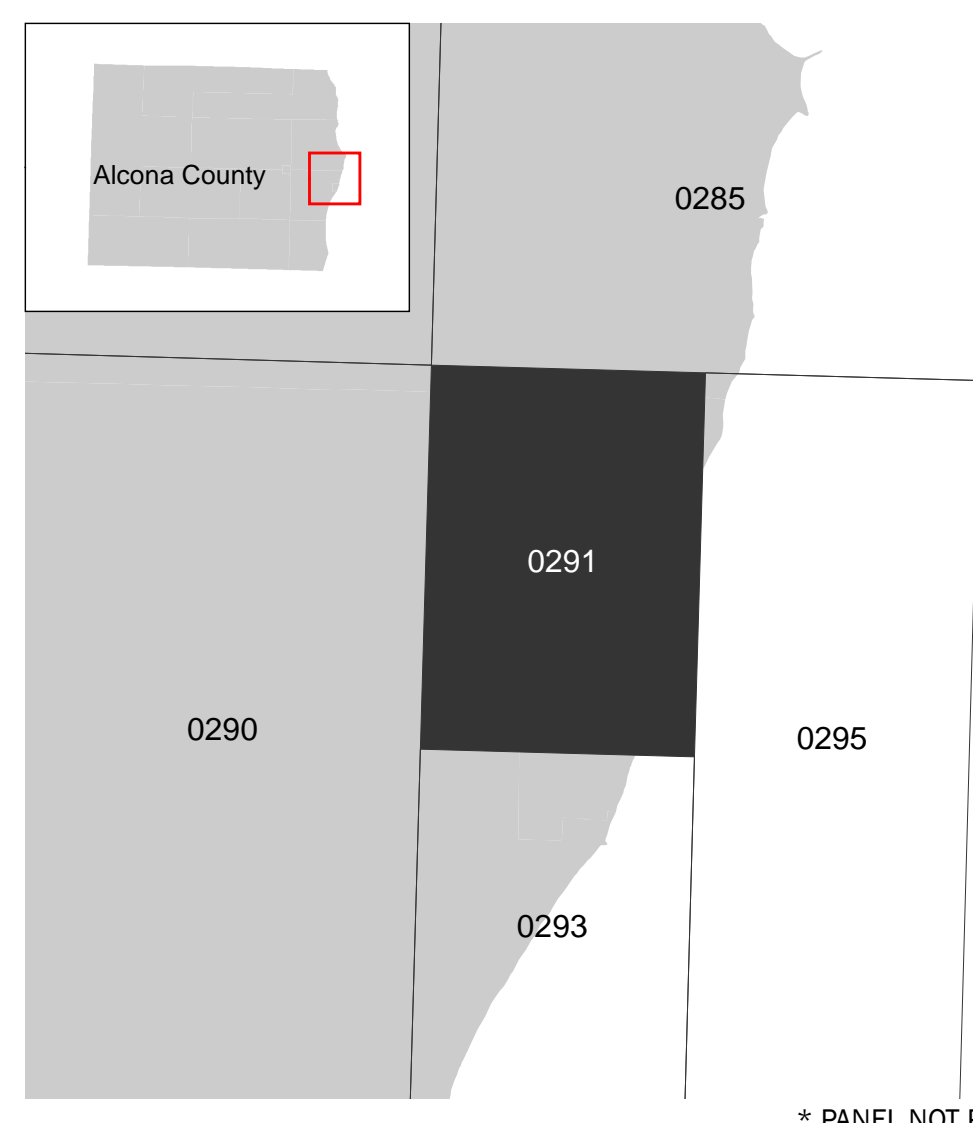

LIMIT OF MODERATE WAVE ACTION: Zone AE has been divided by a Limit of Moderate Wave Action (LiMWA). The LiMWA represents the approximate landward limit of the 1.5-foot breaking wave. The effects of wave hazards between Zone VE and the LiMWA (or between the shoreline and the LiMWA for areas where Zone VE is not identified) will be similar to, but less severe than, those in the Zone VE.
