Base map information shown on this FIRI was provided by the Wisconsin Regional Orthophotography Consortium (WROC). The aerial photography was acquired in the Spring of 2015 to create 1:1000' scale digital orthophotos with 18-in resolution.

The map reflects more detailed and up-to-date stream channel configurations than those shown on the previous FIRI for this jurisdiction. The floodplains and floodways that were transferred from the previous FIRI may have been adjusted to conform to these new stream channel configurations. As a result, the Flood Profiles and FDTs may reflect stream channel distances that differ from what is shown on the map.
